

2014 vDrive and DeltaForce Service Parts

February 25, 2014

Dear DeltaForce and vDrive Dealers,

We know that you are busy working on installations and health checks. Your efforts are very much appreciated. To help you provide continued support to your customers through the planting season, we would like to provide you with three categories of service parts.

First, as is our normal practice, we will have regional warranty kits deployed throughout the country to provide quicker access to parts than what would normally be available. These kits will be shipped in April and we will communicate their locations as they ship.

Second, Precision Planting will enter an order on your behalf for DeltaForce cylinders, vDrive motors, and SRMs for you to have in stock to directly support your customers. These parts are intended to serve as warranty parts but differ from previous warranty kits since you will be invoiced for these parts at your normal dealer discount. Payment terms will match the current cash discount terms that are offered online. You will receive one (1) DeltaForce cylinder for each 24 rows of cylinders that you have ordered. If you ordered 16 cylinders, you will receive one spare cylinder on this order. If you ordered 32 cylinders, you will receive 2 spare cylinders. The same will apply to vDrive motors— one (1) spare for every 24 motors that you have ordered. You will also receive a number of SRMs equal to the number of cylinders or motors you are receiving, whichever is higher. So, if you are receiving 4 spare motors and 3 spare cylinders on this order, you will receive 4 spare SRMs.

If you already have spare cylinders, motors, and SRMs in stock and do not wish to receive this order, please e-mail farrah.eeten@precisionplanting.com by **Friday, March 7** to let us know that you do not wish to receive this order. You also have the right to refuse the shipment when it is delivered. If you do accept the shipment, you may request an RMA by **Monday, June 2** to return any unused components. RMA requests received after this date will incur a 15% restocking fee.

Third, we are including in this notice a list of parts that we recommend that you keep on hand to support your customers during planting. Use this recommended list to place an order in the next few weeks based on the number of vDrive and DeltaForce rows that you have sold and the mix of planter makes that they represent. The recommended parts list is on the next page.

Thank you for your continued support of your customers,

Precision Planting

2014 vDrive and DeltaForce Service Parts

Parts Recommended for Inventory:

Part Number	Description	Qty	Comments
725580	5/8" JD Smart Pin	10	Order based on OEM planters in territory
725466	Kinze 3000 Smart Link	10	Order based on OEM planters in territory
725502	CNH Load Sensor	10	Order based on OEM planters in territory
725581	1/2" JD Smart Pin	5	
727178	9' JD Rotary Height Sensor Harness	3	
727116	15' Height Switch Extension	3	
727123	Whisker Switch w/ Cable	3	
726150	JD Regular Parallel Arm Lift Switch	4	
726260	JD Long Parallel Arm Lift Switch	2	
726265	Kinze Lift Switch	4	
726635	CASE IH Lift Switch	4	
729039	Row Plugs	10	5 max used per planter - order accordingly
729147	CAN Terminator	5	
729021	Row Harness	5	1 Per 24 Rows - (1) per planter already provided
729031	11R30 Backbone Harness	2	
729026	6r30 backbone	2	
730090	vSet meter	5	1 per 15 rows
727124	GPS Adapter (JD)	1	
727131	Timble Adapter Harness (AG252, AG262, AG162)	1	
727060	Trimble FMX, CFX Adapter	1	
727136	Dickey-John RVS III Radar (with Mounting Bracket)	1	
727122	John Deere 30 & R series Cab Adapters	1	
727141	John Deere 00, 10 & 20 series Cab Adapter	1	
727167	Raven 3-pin to DJ 4-Pin	1	
727139	Case MX & STX Adapter Harness	1	
727129	Dickey-John 6' Extension with splitter (4-Pin Male to Two 4-Pin Female)	1	
725801	Gen 2	1	Needed to run ultra
