This guide is intended to be a quick look at row unit compatibility across our product line. Some products are only compatible if certain other criteria are met or when additional adapters are purchased. For more detail on specific row unit fit-up for a product, please see the detailed order guide. Gen 3 20|20 and the 20/20 SeedSense are not listed on this guide, please consult the detailed order guide for compatibility of our display systems.

*Mini Smart Firmer compatibility coincides with FurrowJet compatibility (this does not apply Case row units)

2020 YieldSense Compatibility Guide
