			YS2 (old)	Sold as 750520											

ALL PRIOR CHAINS

- Part #s: 750838, 751210, 750237, 750638, 750520
 - Most had standard paddles + HD property bucket
 - Some may not have HD property bucket
 - Some may have HD crud brush
- visually inspect to ID replacement style needed

very early (2014ish) chains had white paddles. Fine to run.
Part # on the paddle should be 750470.

PADDLES AND CRUD BRUSH: MIXING OLD + NEW

- Can't put old style paddles on new style chain and vice versa - bolt holes don't line up.

UNLESS you also replace the 3 pitch section.

- Example: has old crud brush 750611 in stock and wants to put on new 751240 chain. Would need old 750239 3 pitch to make that work.
(usually easier to order the correct paddle)
