Raven Cruiser II GPS Setup

Step 1:

Using the 725599 Universal GPS adapter, tie into either port A or B on the backside of the Raven display.

Step 2:

Navigate to the Settings option on the home screen of the display.

Step 3:

Under the settings, select the 'Output' option of the GPS setup.

Step 4:

Configure the output with the following settings:

- GGA: 5
- RMC: 5
- VTG: 5
- Baud Rate: 38400
- Apply settings to the port which has the 725599 adapter plugged in. (A or B)
