Vaderstad Tempo SRM Bracket 712133 Kit Installation

QTY	Part Number	Description
1	712134	Tempo SRM Bracket
1	712135	Tempo SRM Hardware

SRM Installation: Remove the top right bolt from the shank (as seen below). This is where the hopper tube is tightened to the shank. The SRM bracket will use this hole to secure it to the shank. The notch on the bottom of the bracket will fit around the lower bolt to keep it from pivoting.

Vaderstad Tempo L SRM Bracket 712470 Kit Installation

QTY	Part Number	Description
1	712471	Tempo L SRM Bracket
1	712472	Tempo L Hardware

Install the SRM bracket as pictured below and mount the SRM to the bracket.

Vaderstad Lift Switch Bracket 712257 Kit Installation

QTY	Part Number	Description
1	712260	HARDWARE KIT
1	726760	SWITCH LIFT
1	63126	CABLE TIE
1	712259	LIFT SWITCH BRKT

Lift Switch Installation: The lift switch bracket attaches to the shank as shown below. The lift switch should be activated by the lower parallel arm when the planter is raised. The bracket can be installed on the right or left side of the shank depending on the row unit's configuration and interference.
