

vSet 2 Canola Wiper Kit Install

Kit Part # 768335

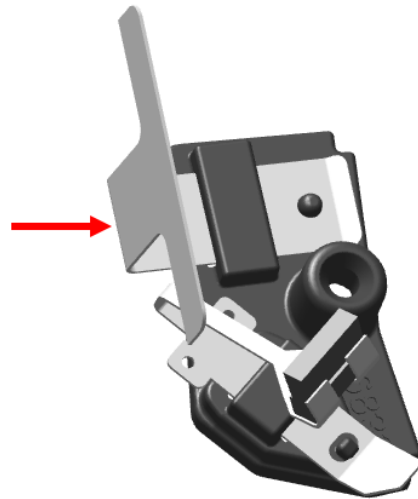

Step 1:

Insert the brush seed extractor into the holder.

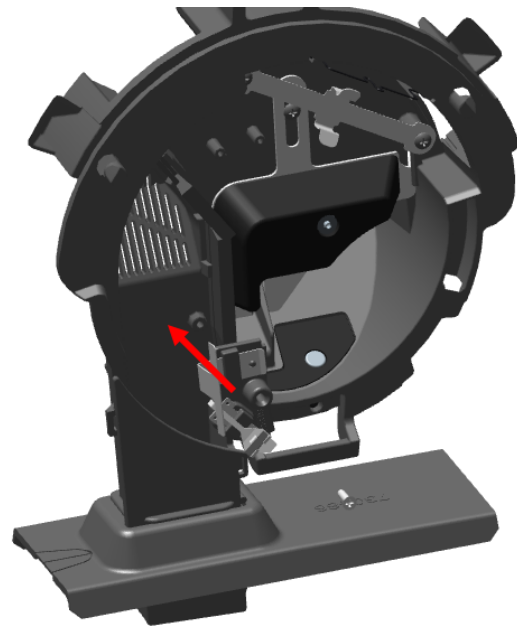

Step 2:

Next, insert the wiper into the wiper holder.

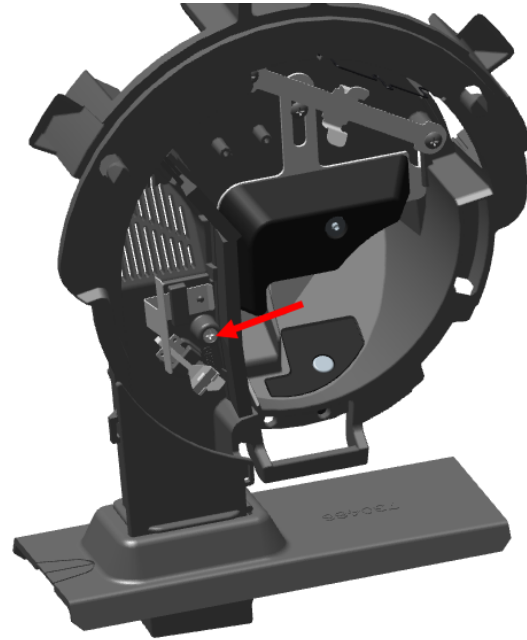

Step 3:

Insert the wiper kit into the exit chute of the seed cover where shown.

Step 4:

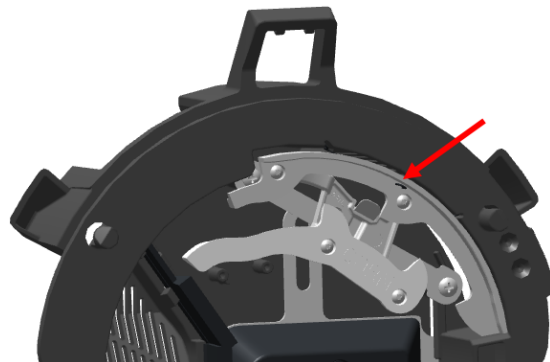

Use the provided screw to attach the wiper kit to the seed cover. Tighten to fully seated with an additional ¼ turn.

**Step 5:**

Clean the inside of the cover where the canola strip will be placed. Once clean, remove the adhesive cover and place the strip on the inside of the cover as shown. Firmly press the strip in place to ensure good adhesion.

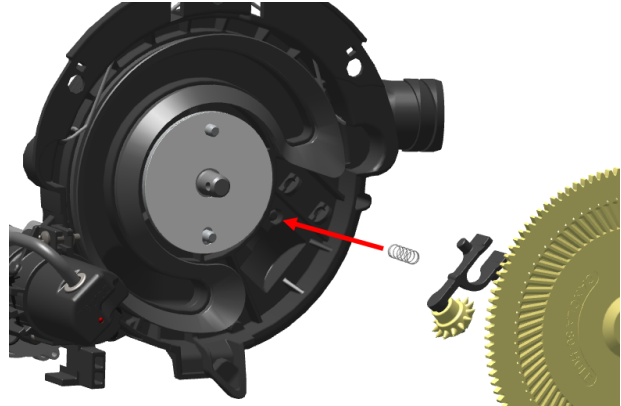

**Step 6:**

Install the singulator.

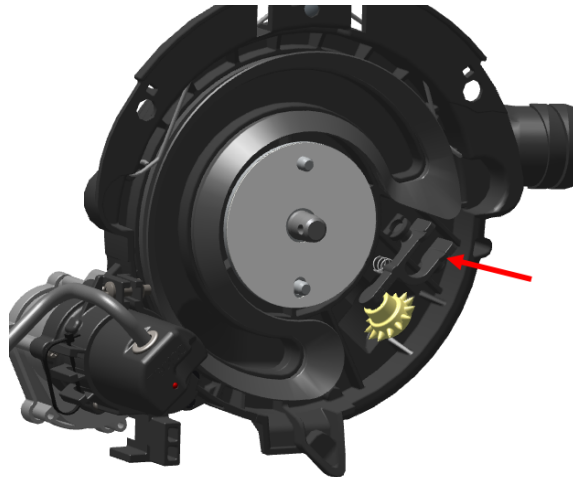

Step 7:

On the housing side, be sure the spring is installed in the housing.

Step 8:

With the spring installed, install the pinch style ejector into the housing as shown in the picture.

Step 9:

Install the disk into the housing being and secure it into the housing with the pin.
