

vSet 2 with SpeedTube Fittings Kit (1.25" Hose)

Parts List

- **731181 Vac Hose Meter Fitting** (Qty. 1)
- **730224 Row Unit Hose Cap** (Qty. 1)
- **1.25" Row Unit Hose** not included

The 731188 vSet Fittings Kit is used for existing JD and Precision Planting vacuum systems. You will reuse the existing row unit hose and install the kit.

**Step 1**

Cut the row unit hose to remove the existing meter fitting. Some rows may require additional length to be removed. Make sure that you have measured to be sure the new fitting will fit correctly onto the row. Remove 90 degree elbow fitting with hacksaw. to be removed. Make sure you have measured to be sure the new fitting will fit correctly onto the row.

**Step 2**

Thread the 731181 Vacuum Hose Meter Fitting into the existing row unit hose. This fitting uses left handed threads to attach. Turn the fitting counter clockwise to tighten.

Step 3

Carefully route the row unit hose. The new 135 degree fitting will require the hose to be routed above the cross member bracket.

**Step 4**

Use the 730224 Row Unit Hose Cap to manually disable planter rows.
