

vSet[®] vSet Select Elbow Fittings Kit (CIH 1255)

731288

Parts List

- 731182 Vacuum Hose Meter Fitting (Qty. 1)
- 731278 Vacuum Hose Coupler (Qty. 1)
- 731177 Vacuum Hose Fitting Cap (Qty. 1)
- 1.5" Row Unit Hose not included

The 731288 vSet Select Elbow Fittings Kit is used for 1255 Case IH planters outfitted with vSet Select. You will install 1.5" row unit hose to complete the installation.

Step 1

Cut the 1.5" row unit hose to length. Some rows may require additional length depending on the distance from the manifold fitting to the row. Do not cut the row unit hose too short. A general starting point is 4" per row.

Step 2

Loosen and slide the gear clamp on the 731278 vacuum hose coupler rearward as shown in figure 2.

Figure 2

Step 3

Secure the 731278 vacuum hose coupler to the Case IH elbow. Twist the coupler as you slide it onto the elbow. Secure the worm gear clamp to the elbow. Slide the 1.5" row unit hose into the other side of the coupler and secure.

Precision Planting[®]

Step 4

Carefully route the row unit hose above the cross member bracket of the meter.
